BRAINERD, MINN., FRIDAY, MARCH 9, 1906.

## FRANCE IS STILL FIRM

FAVORS THE CONTRACT PLAN.  
Opinion of Professor Burr on Construction of Panama Canal.

Washington, March 9.—The examination of Professor William H. Burr of New York, formerly a member of the Isthmian canal commission and a member of the board of consulting engineers, continued during the day before the senate committee and had not been concluded when adjournment was taken for the day. The examination for the day closed with testimony favoring the contract plan of construction.

POLICY IN REGARD TO MOROCCO  
NOT ALTERED ON ACCOUNT  
OF CABINET CRISIS.

Washington, March 9.—The examination of Professor William H. Burr of New York, formerly a member of the Isthmian canal commission and a member of the board of consulting engineers, continued during the day before the senate committee and had not been concluded when adjournment was taken for the day. The examination for the day closed with testimony favoring the contract plan of construction.

SEARCHING FOR A PREMIER

PRESIDENT FALLIERES HAVING  
A HARD TIME FINDING A MAN  
FOR THE POSITION.

Paris, March 9.—President Fallieres' efforts to induce one of the several statesmen with whom he conferred during the day to undertake the task of forming a cabinet have not yet borne results. M. Sarrien, who declined either the premiership or a portfolio, suggested M. Bourgeois, whom M. Dubost, president of the senate, and M. Doumier, president of the chamber of deputies, also put forward, declared that he does not feel physically strong enough to undertake the premiership, but would consent to accept the foreign portfolio, under M. Sarrien, whom he thought the best fitted to take the reins of power. President Fallieres refused to accept the decision of either M. Bourgeois or M. Sorrien as final, but both persist in declaring that they will not undertake to form a ministry. It is understood that M. Poincaré will be called to the Elysée during the day and the indications are that a cabinet under his leadership will be acceptable to the advanced Republican groups. M. Ribout's name also is mentioned.

It is believed a decision concerning the premier will soon be reached. Members of the chamber of deputies, however, foresee a possibility of the crisis lasting six or eight days.

A strong reaction has set in in favor of M. Rouvier. The newspapers severely criticize the action of the chamber in defeating him when he was performing a duty which promised to produce the most notable diplomatic success of recent years. It has now become quite evident that France will not waver in her policy at the conference at Algeciras.

HOPE NOW RUNS HIGH.

Difficulties Over Morocco May Be Adjusted.

Algeciras, March 9.—Success of the conference on Moroccan reforms here cannot be described as absolute since two of the main points in dispute, the allotment of bank capital and control of the police, are not yet settled. Hopes, however, run high that these outstanding difficulties soon will become subject to arrangement. The French delegates show an inclination to regard the way as opened to an understanding, and the other delegates consider that a great forward step was made during the day when a strong spirit of conciliation became evident. One of the most prominent delegates, moreover, expressed the view that "matters have proceeded so far that neither side will dare break up the conference."

The delegates of the neutral powers generally regard the Austrian police proposal as being unfeasible, but consider that it will serve as a basis for an eventual compromise.

The opinion gains ground that France finally will consent to a diminution of her financial influence in Morocco by accepting a reduction of the voting power allotted to French subscribers to former loans, and in return for this concession it is thought the police will be placed under the direction of France and Spain with a neutral inspecting officer who shall report to the powers but not exercise command.

DEFENDANTS MUST APPEAR.

To Show Cause Why Injunction Should Not Be Issued.

San Francisco, March 9.—In the suit against the Otis Elevator company and others, United States Circuit Court Judge Morrow during the day ordered that the defendants appear and show cause on March 26 why a temporary injunction should not issue enjoining them from acting under the unlawful agreement or contracts set out in the bill of complaint.

AUTO AND CAR COLLIDE.

Three Persons Injured in Accident at Marion, Ind.

Marion, Ind., March 9.—Three persons were injured, two seriously, in a collision here at night between an automobile and a street car at Gallatin and Sixth street. The automobile was wrecked and the occupants were hurled twenty feet. The injured are:

Mrs. W. C. Reynolds, sixty-five years old, will probably die; Mrs. Ida Druewell, forty-five years old, condition serious; Miss Louise Reynolds, twenty-five years old, will recover.

## THE ABSORBING TOPIC

SENATORS CONTINUE THEIR DISCUSSION OF THE RAILROAD RATES QUESTION.

## MANY OF THEM IN DOUBT

FRANKLY ADMIT THAT THEY DO NOT KNOW JUST WHAT THEY MAY DECIDE TO DO.

Washington, March 9.—Regardless of the fact that the statehood bill was the only question discussed in the senate during the day, railroad rates continued an absorbing topic and groups of senators met in earnest but informal consideration of the many suggested amendments. The big question now is one of wording amendments and without doubt no bill that has been before congress in years has been given so much attention over so small an issue.

Judicial review of orders of the interstate commerce commission has from the first been the real issue. One faction, that supporting the bill in its present form, declares that it has no objection to railroads having their day in court, but it makes the assertion that this is provided by the present bill. The other faction contends that it wants the same thing, but that the bill should provide for this in specific terms. There are other factions which have amendments, such as the Spooner plan of impounding the difference between the commissions and the railroads' rate pending a determination of the equity of the former; and the Bailey proposition declaring for a full review by the courts, but limiting the power of the circuit courts to enjoining the commission.

There were only a few verbal and minor amendments made to the Indian bill. Mr. Crumpacker acted as censor on the measure under the five-minute rule, making many points of order to various paragraphs. In each case, however, he withdrew his objection after an explanation had been made.

## CALL ON ROOSEVELT

TWO STANDARD OIL OFFICIALS  
VISIT THE PRESIDENT AT  
THE WHITE HOUSE.

Washington, March 9.—H. H. Rogers and John D. Archbold of New York, vice president of the Standard Oil company, were in conference with President Roosevelt at the White House at night. Neither of them would discuss the nature of their call. They arrived in Washington early in the evening and expect to leave here in the morning.

It was impossible to learn anything regarding the conference which the Standard Oil officials had with the president. While it is possible that the call had some connection with the message which President Roosevelt sent to congress Wednesday calling attention to the fact that without an extra appropriation and the power to compel the attendance of witnesses, the Tillman-Gillespie resolution, which he signed, to investigate alleged railroad monopolies of coal and oil will amount to very little and might amount to nothing, there is nothing on which any definite conjecture of the purpose of the conference can be based. Both officials repaired to their hotel after leaving the White House.

Nansen Is Minister to London.

Christiana, March 9.—Dr. Fridtjof Nansen has been appointed minister to London, Baron A. von Wedel-Jarsberg minister to Paris, J. C. W. Prebensen minister to St. Petersburg, T. von Ditten minister to Copenhagen, Benjamin Vogt minister to Stockholm and O. Gude minister to Berlin.

Mr. Schwab in Fine Spirits.

Kansas City, March 9.—Charles M. Schwab arrived in Kansas City from the West in his special car over the Rock Island railroad at 3:38 p. m. He said that he was only slightly indisposed, the result of three weeks of almost constant railway traveling. He was in fine spirits. Mr. Schwab left here at 9:15 p. m. for St. Louis.

Cossacks and Tartars Fight.

Tiflis, Transcaucasia, March 9.—Tartars of the village of Atlaton during the day fired on a detachment of passing Cossacks. The latter bombarded the village for three hours and killed the Tartars, killing several of them.

Peace Reigns in Uruguay.

Montevideo, Uruguay, March 9.—Peace continues to reign throughout the republic. A number of additional arrests have been made, but the revolutionary movement has completely collapsed.

Miss Anthony Very Weak.

Rochester, N. Y., March 9.—Miss Susan B. Anthony is resting very comfortably, but is extremely weak.

This weakness is the one symptom

about her condition that causes her friends anxiety.

Rome, March 9.—The Marchioness of Corsini, formerly Princess Barberini, was killed during the evening by the overturning of an automobile in which she was riding with her husband, King Victor Emmanuel's master of horse. The marchioness, who was sixty-two years old, was driving the automobile. While crossing a bridge in the suburbs, the marchioness turned out to give a cart safe way and ran the automobile into the parapet with such violence that it gave way and the automobile was thrown into the ditch, fifteen feet below, turning completely over as it fell. The marquis and the chauffeur escaped without a scratch.

SEATTLE elected a municipal ownership candidate for mayor by a plurality of 15.

THE Northern Pacific have promised St. Cloud a depot to cost \$40,000 this season.

THE St. Peter Tribune wants Julius Block to be the next governor of Minnesota and covers three pages of that paper in telling the people of his fitness.

THE omission of the standing appropriations from the new code was made purposely by the commission because they did not believe in that method of doing business, so it said.

AN exchange wishes to know if there will ever be a system of taxation adopted whereby the man with the little home doesn't have to pay more than his proper portion of the taxes.

THERE are three candidates for mayor of Little Falls and each candidate appears to be in the field in the interest of a friend for the police force. Better elect the policemen and let them appoint the mayor.

THE Fargo Argus asks why the Duluth man who was chased by wolves and kept them at bay by feeding them can goods he had in his sleigh did not go back over the route the next day and pick up the dead and collect the bounty, going on the theory that the goods were bought of Roe, Scarbuck & Co., or some other mail order house.

FRANK M. EDDY is not a candidate for governor and his name will not go before the state convention when it meets to place the next executive of the state of Minnesota in nomination. Mr. Eddy makes this announcement in his paper, the Sauk Centre Herald, and there should be no hesitancy in believing that the gentleman knows what he is talking about. This gives his fellow townsman, C. M. Sprague, a clear field for lieutenant governor. The question now arises, what will Charley Moody do with all the Eddy clubs and sentiment that he has organized and manufactured in the north end of the state.

### WHAT IS CATARRH?

H. P. Dunn & Co. Guarantee a Cure by Hyomei or Will Refund the Money.

Until very recent years, it was thought that catarrh was a disease of the blood, but now modern science has proved that catarrh is a germ disease, and can be cured only by a treatment that will kill the germ and heal the mucous membrane of the nose and throat.

Therefore, when you have catarrh, you can readily see that if you want to cure it, you should use Hyomei, which mediates the air you breathe, thus killing the catarrhal germs and healing the smarting and raw membrane of the passages through the nose and throat.

The complete Hyomei outfit, consisting of an inhaler, a bottle of Hyomei, and a medicine dropper, costs only \$1, while extra bottles can be obtained for 50 cents.

H. P. Dunn & Co. have sold a great many Hyomei outfits, and the more they sell, the more convinced they are that they are perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

THE DAILY DISPATCH brought to your door for only 40 cents per month.

### NOTES OF THE RAILWAYS

Grasshopper Engine to Astonish Pennsylvania Trainmen.

### AN IMPORTANT NEW DEPARTURE

Scheme of New York Central That Promises Much For Future of Young Men—Dining Cars on the Burlington Made From a Historic Oak—The Baltimore and Ohio to Grow a Snowshed.

Trainmen on incoming Pennsylvania trains the other afternoon at Jersey City passed this word, says the New York Times, "The grasshopper is pulling the yellow bird."

It was not, as some passengers took it, a story of unseasonable weather conditions. It meant that locomotive No. 3,004, one of the queerest looking machines that ever pounded rails, had gone into regular service at the head of the chrome colored "fast flying Virginian" express of the Chesapeake and Ohio railroad.

No public announcement had been made of the completion of the engine at the company's Juniata shops, but the employees had been waiting to see it with eager interest, so when the Virginian reached the Jersey City terminus without a hitch, and the passengers flocked over to look. No. 3,004 is as big as the biggest. She has just a rudimentary cowcatcher, and all the mechanism, the eccentric and reversing links, usually concealed, are outside of the drivers. The rocking of her great levers, like the limbs of a giant insect, gave rise to the nickname.

The lady evangelists at the First Baptist church on Sunday will hold services both morning and evening. They will hold meetings all next week at this church and all are invited to be present.

The Skovgaard Concert company will hold forth at the Brainerd opera house tonight. The event musically will be one of the best of the season. A Deocorah, Ia., exchange says of them:

"The Skovgaard Concert company appeared before a moderate-sized audience at the Grand Opera House last Friday night, and from the opening number to the closing were accorded a continuous ovation.

"To speak of Skovgaard's playing, comparison can only be made with such artists as Remenyi, the French violinist, or Cle Bull. We take these because no others of equal rank have visited Deocorah. They were of the type of Skovgaard. He has all their technical skill, plus a delicacy and beauty of tone that is seldom heard from the instrument of any artist. His rendition of Mendelssohn's Concerto was in every way masterful, and the applause which followed it was a just tribute to the artist. The audience would not be satisfied until Skovgaard responded with an encore, and when the opening notes of Suwanee River were heard their beauty was almost tear-compelling. Whether it was the brilliant classical number or the simple folk song Skovgaard's work was that of the finished artist. He bows like the wind and his fingering is well nigh perfect."

### A RELIGIOUS

### AWAKENING

Is Anticipated by Those Who Attended Union Prayer Meeting Last Night

### AT SWEDISH BAPTIST CHURCH

Addresses Made by Leading Pastors of the City on the Question

There was a union prayer meeting last night at the Swedish Baptist church of nearly all the protestant churches of the city. The meeting was really the first of a series which it is hoped will prove a great religious awakening in Brainerd.

A large number of leading pastors of the city were present. Rev. P. G. Nelson, of the Swedish Baptist church, presided at the meeting, and addresses were made by Rev. H. W. Knowles, Rev. E. A. Allin, Rev. J. E. Berry and Rev. Seder. Considerable enthusiasm was evident and they will plan for a vigorous campaign and hope for a big religious awakening in Brainerd.

### MUSIC AND DRAMA.

SKOVGAARD CONCERT COMPANY.

The Skovgaard Concert company will hold forth at the Brainerd opera house tonight. The event musically will be one of the best of the season. A Deocorah, Ia., exchange says of them:

OLAF JOHANN SAERVOLD.

The New York Central has made a new and important departure which promises much for the future of young men who enter the mechanical branch of the service, says the Cleveland Plain Dealer. It is understood to have been inspired by W. H. Marshall, recently general manager of the Lake Shore, who has taken up his duties as president of the American Locomotive company.

Apprentices seeking admission to the shops of the New York Central lines will be placed by Charles W. Cross with the assurance that when qualified they will be given positions in the service if they wish it.

The effect will be to make available for the company a corps of competent young men trained to a knowledge not only of railway mechanics, but also a thorough knowledge of the methods, policy and standards of the company and who in turn will receive recognition when the opportunity to advance them presents itself and they have shown themselves capable of filling a higher place.

Mr. Cross has been master mechanic of the shops at Elkhart, Ind., in which capacity he is succeeded by J. C. McCarty.

The largest freight car in the world, with a capacity of 200,000 pounds, is being constructed in the St. Paul shops at Milwaukee, says the Cleveland Plain Dealer. The largest freight cars at present are of 100,000 pounds capacity. The car is being built to transport a ninety ton section of a base for a blast engine which a company is shipping to Bethlehem, Pa. The car is forty-one feet long, has four instead of two trucks and sixteen instead of eight wheels.

The Baltimore and Ohio railroad has decided to grow snowsheds along their route through the mountains, says a Pittsburgh dispatch to the New York Tribune. The officials recently had a conference with the officials of the department of forestry at Washington, who advised planting trees along the line. This will be done, and boards will be nailed from tree to tree. The work of planting will begin in the spring.

# CONSERVATION FOR PUBLIC OF ALL NATURAL RESOURCES

Is the Theme of Address by Hon. L. A. Rosing at Opera House Last Night

## LIGHT AND WATER SERVICE Should Be Cheap For They Enter Intimately Into The Home Conditions

### HON. L. A. ROSING'S SLOGAN.

"The highest ideal of a public ownership plant is to render service; the highest ideal of a privately owned plant is to pay dividends."

Hon. L. A. Rosing, president of the State Municipal League, delivered an address last night at the Brainerd opera house to a good audience, not so great in numbers perhaps, but good and enthusiastic over the subject in hand, that of "Municipal Ownership."

Dr. J. L. Camp, president of the local Municipal League, presided over the deliberations of the meeting, and there were a large number of well known Brainerd business and professional men on the stage, including the members of the city council and other public officials.

Generally speaking the effort was the best ever heard here on this question. Mr. Rosing has evidently made a thorough study of this question of municipal ownership and his wide knowledge of the affairs of municipalities and their government make his statements the more interesting in that they teem with facts and not fancies.

He claimed as in all other questions the one great principle necessary to success is organization. It is important to a city, not only from the standpoint of the ownership of public utilities, but a necessary and almost indispensable symptom in order to secure the success of the people of a municipality, that they may receive their rights and the proceeds that belong to them.

One of the points referred to and a question that is important to the people is the fact that there is a recklessness in not conserving our own natural resources for the benefit of the people. He illustrates this point by referring to the Pacific timber crop, which the Almighty took years to grow, and which is gobbled up in a few years by private individuals.

#### IRON ORE ROADS.

The speaker referred to the great ore industries of the state and how individuals were usurping the rights of the people in that the natural resources of the land were not being turned into the channels for the public good. He had looked up the annual statements, for instance of the Mesaba range roads. He had found that they operate 394,50 miles of road, including spur tracks. Their gross earnings for year were \$13,044,499.33; operating expense \$4,507,591.26; showing a net earning of \$8,536,908.07. Deducting from this the taxes of the state, it is found that the actual net earnings of the companies is \$8,117,360.38, or a net earning of \$20,550.00 per mile. In spite of this showing the companies did not declare a dividend for the past year. The net earnings of these roads equals the whole amount expended in the state of Minnesota by

ration between the executive and legislative departments of the city government. The mayor should be the executive in fact; the council control the administrative features. The city council should be strictly limited to the legislative, the enactment of the ordinance and the appropriation of the necessary funds for the various departments. The council should be the master of the purse strings. "You might just as well expect a debating society to run the Russo war as to allow the council to conduct the administrative part of the city," said the speaker. "Give the mayor power to execute and hold him responsible for the results," he said.

Mr. Rosing closed with an appeal to the citizens of Brainerd to stand together in promoting the welfare of the city. "The lumbering industry is a thing of the past," he said, "and the future success of the city depends on the loyalty of its own citizens and their capacity of organization to promote the welfare of its own community."

Mr. Rosing did not enter a great deal into local conditions, for as he expressed it he did not feel that it was for him to point out specific cases but he gave to the best of his ability a statement of the great principles of public ownership which can be applied in all cases.

Three little rules we all should keep, To make life happy and bright, Smile in the morning, smile at noon, Take Rocky Mountain Tea at night. H. P. Dunn & Co.

#### TO WALKER TOMORROW

Dr. H. Longstreet Taylor, of St. Paul. Dr. J. L. Camp and L. A. Rosing Will

Visit Walker Sanatorium

Dr. H. Longstreet Taylor, of St. Paul, and Dr. J. L. Camp, of this city, representing the commission appointed by Ex-Gov. Van Sant to arrange for a state sanatorium for consumptives at Walker, Hon. L. A. Rosing, of the state board of control, and Architect Clarence H. Johnson, of St. Paul, will go to Walker tomorrow. Mr. Rosing goes to accept the new residence on the site bought by the commission. The other gentlemen go to figure on plans for the buildings.

## Faulty Digestion

Causes Physical and Mental Breakdown. H. P. Dunn & Co. say Mi-o-na will Strengthen Stomach

Few people realize the intimate relation between the mind and the stomach. Worry and excessive mental work react on the digestive system, while on the other hand the greatest cause of nerve and brain impoverishment is a weak or faulty digestion.

Just as soon as you find that your food is not properly digested, that you taste it after eating, that the tongue is furred, the breath heavy, the appetite poor, the head occasionally dull and aching, begin the use of Mi-o-na.

It is a guaranteed cure for all diseases of the stomach, excepting cancer. It is not a patent medicine, and its formula is furnished to physicians, druggists, and all intelligent people who may desire it. Mi-o-na differs from any other remedy on the market, both in its lasting effects and in the manner in which it is sold, that is, on a guarantee that it cost nothing unless it cures.

Ask H. P. Dunn & Co. to show you the guarantee they give with every 50 cent box of Mi-o-na.

#### RECRUITERS FOR BRAINERD

Branch of the U. S. N. Recruiting Station to Be Established Here

#### EXPECT TO GET MANY MEN

Chief Yeoman B. A. Bachman Will Probably Be Detailed To Take Charge

Chief Yeoman D. A. Bachman, U. S. N. will arrive in the city tomorrow for the purpose of establishing a branch recruiting station for the navy. There was a branch station here last year and several recruits were secured for the navy.

The Minneapolis Journal says: "Within a couple of days the naval recruiting office in the federal building will establish a branch office at Brainerd. Lieutenant I. C. Wettenge has received orders from the navy department to this effect. No time limit for the continuation of this office is set by the orders and it may become permanent."

"Chief Yeoman D. A. Bachman, at present attached to the Minneapolis office, probably will be detailed to take charge of the new office. He will gather in men and give them their preliminary examinations. Whenever a sufficient number are ready, Lieutenant Wettenge and Dr. Robert Bachman will go to Brainerd to give them the final examinations and swear them in.

"Men enlisted at Brainerd will not come to Minneapolis, but will be sent direct to the receiving stations. Lieutenant Wettenge said today that he hoped to draw a fine lot of young men from the farmers, lumbermen and log-drivers of the section centering in Brainerd."

## LARCENY IS CHARGED

INSURANCE COMPANY OFFICIALS  
INDICTED BY GRAND JURY  
IN NEW YORK CITY.

### THREE PERSONS INVOLVED

ONE OF THEM SAYS THAT IF ANY  
CRIME HAS BEEN COMMIT-  
TED IT IS TECHNICAL.

New York, March 9.—Indictments charging grand larceny in the first degree and forgery in the third degree by Frederick A. Burnham, president; George D. Eldridge, first vice president, and George Burnham, Jr., second vice president of the Mutual Reserve Life Insurance company, were found by the grand jury here during the day. Five indictments were brought against each officer, two for grand larceny and three for forgery. The alleged larceny and forgery was brought about, according to the indictments, by payments of \$9,000 of the company's money to law firms with the apparent purpose of settling claims against the company, while the real object is alleged to have been to settle actions which had been brought against officers of the company as individuals. The indictments on which the charges of larceny are based alleged that the officers embezzled two sums, one of \$7,500 and the other of \$1,500 on October 24, 1901.

The three officers appeared in the court of general sessions where Judge O'Sullivan fixed their bail at \$12,500 for each and set next Thursday as the time for trial. George Burnham, Jr., when seen at the company's office after the jury's action had been announced, said:

"We have been expecting this and have engaged counsel to defend us. Aside from stating that if there has been any crime committed, it is but technical, I do not care to discuss the case."

In addition to the transactions of the Mutual Reserve the grand jury has before it a general consideration of insurance companies. The jury recently asked Judge O'Sullivan for guidance in the proposed investigation. During the day Judge O'Sullivan and also District Attorney Jerome advised the jury to wait before beginning its investigations, until opinions of legal authorities can be obtained upon the questions involved.

### TRAGEDY IN MINNEAPOLIS.

Henry Morissette Wounds His Wife and Then Commits Suicide.

Minneapolis, March 9.—Having twice wounded his wife with a revolver, and believing that he had done her mortal injury, Henry Morissette killed himself at about 8 o'clock a. m. in their home, 82 South Tenth street. Morissette shot himself in the right temple and his death must have been instantaneous. His wife, Mrs. Julia Morissette, has one bullet wound on the left side of the head and another on one of her hands. She is at the city hospital, but her condition is not regarded as alarming and it is believed she will be able to be out again in a few days.

The tragedy was the culmination of a series of quarrels between Morissette and his wife, which it is said have extended over the entire nine years of their married life, and at times have resulted in temporary separation. The most recent cause of trouble was the fact that Mrs. Morissette had her two sisters, Rose and Josephine Guertin, come to live with her.

### GRAND JURY INVESTIGATING.

Hears Testimony in Sugar Trust Rebate Case.

New York, March 9.—Evidence of a definite agreement between the railroads running out of New York city upon a division of the sugar freight business and also the payment of rebates was given before the United States grand jury here during the day. Attorneys of W. R. Hearst, the complainant in the case, declared that the government was in possession of documentary proof on every point charged and that the United States district attorney's office was confident of exposing the most startling relations existing between carrying and producing trusts.

### LIVELY RACE RIOT.

Hungarians and Negroes Fight at Zeigler, Ill.

Duquoin, Ill., March 9.—A lively race riot occurred during the night between negroes and Hungarians employed in the coal mine at Zeigler and several combatants on both sides received injuries, but no deaths have been reported. It is thought to have resulted from ill-feeling between the classes over labor differences. Guns, knives, razors and clubs were brought into play but finally order was restored and the outbreak was not resumed. It is feared, however, that quiet has been restored only temporarily.

Government Agent Arrested.  
Casper, Wyo., March 9.—W. A. Brothers, government disbursing agent for the Pathfinder reservoir project, with headquarters at Casper, was arrested during the day on a charge of embezzling government funds to the amount of \$5,000.

### SENATOR GREEN ACQUITTED.

Not Guilty of Conspiracy to Defraud the Government.

Washington, March 9.—George E. Green, a former state senator of New York, who has been on trial in the District of Columbia supreme court for more than two weeks on charges of conspiracy to defraud the government in connection with the sale of time clocks to the postoffice department, was acquitted by the jury during the afternoon.

The announcement of the verdict was followed by a remarkable demonstration. One of Mr. Green's friends threw his arms around him and fairly shook him the instant the words "not guilty" came from the lips of the foreman of the jury. Others rushed toward the table at which the acquitted man was sitting and for several minutes he was kept busy shaking hands. Mr. Green was overwhelmed with congratulations by Binghamton people, who have awaited the outcome with interest.

Mr. Green's first act was to telephone the news to his wife. He also sent a telegram to a little girl in Schenectady, N. Y., who had written him that she had prayed for him, telling her that her prayers had been answered.

### DEATH CAUSED BY BLOWS.

Verdict of Coroner's Jury in Case of Harry Tenny.

San Francisco, March 9.—The coroner's jury at the inquest over the remains of Harry Tennebaum, or "Tenny," who died after a glove contest with Frankie Neil, has rendered the following verdict:

"We find that death was caused by blows inflicted in a boxing contest held at Mechanics' Pavilion on Feb. 28, 1906, by Frankie Neil, and further that there was gross negligence on the part of the parties having charge of the contest for not having the contestants examined by a registered physician prior to the exhibition, according to law, and we hereby find said parties responsible for the death of said Harry Tennebaum."

District Attorney Langdon, when told of the coroner's verdict, said:

"In view of the verdict I shall make no positive charge of murder against the promoters of the fight or the parties participating. Further than that I do not care to discuss the case at this time."

Farmer Killed by a Policeman.  
Columbia, S. C., March 9.—John Marion Ashley, a white farmer of Honea Path, was shot and probably fatally wounded at night by Policeman White, who was endeavoring to arrest Ashley. The wounded man's friends and relatives soon gathered and for a time threatened to do violence to the officer. State troops were summoned and soon dispersed them.

### Kills His Brother-in-Law.

Sour Lake, Tex., March 9.—Robert S. Farmer, manager of the Spring hotel, during the morning shot and killed W. P. Murphy, his brother-in-law, who, it is alleged, had sent him word he was coming from Beaumont to kill him as the result of a domestic quarrel.

### LAKE ERIE RAILROAD SOLD.

Pennsylvania and Vanderbilt Interests Acquire the Road.

Pittsburg, March 9.—The Pittsburg Post announces the sale of the Lake Erie and Pittsburg railroad to the joint ownership of the Pennsylvania and the Pittsburg and Lake Erie Railroad companies, which represent the Pennsylvania and Vanderbilt interests. The amount involved in the deal is not stated, but is not less than \$3,750,000. The information comes from a reliable source and it is further stated that the deal was made in an effort to control the lake traffic of the coal districts and keep any competition out of the fields.
